Model Branch; Professional Advantage; Poverty Alleviation and Difficulties Tackling.

1. Introduction

In December 2019, the Faculty Party Branch of The College of Plant Protection of Gansu Agricultural University (hereinafter referred to as the "Faculty Branch") was approved as the second batch of "National Party Construction Model Branch" cultivation and creation units. At present, there are 32 Party members, accounting for 78.05% of the total number of teachers and staff, including 15 senior titles, 24 doctors and 23 professional and technical personnel, which are characterized by high titles, high education and a high proportion of professional and technical personnel. 1 winner of the National May 1st Labor Medal, 1 national March 8th Red flag bearer, 1 outstanding Teacher of Gansu Province, and 2 Young Teachers of Gansu Province. Branch staff to xi jinping, the new times the thought of socialism with Chinese characteristics as guidance, to basic requirements as a starting point, party construction in the new period in the second batch of universities in the new era of party construction "double gen" priority task guide (basic-level party branch) "as the guide, in accordance with the" beginner's mind will be written in the post, the mission to carry out in action "basic create ideas, serious" three will be a class "system, "Don't forget the beginner's mind, keep in mind that the mission" subject education, organized a series of theoretical study, the party spirit education, practice activities, such as distinctive theme activities, to enhance the branch cohesion and political role as the core, improve the party members in the party spirit, shows the party member's cutting edge exemplary role, effectively promote the college teaching, scientific research and social service work, It has made remarkable achievements in local economic and social development.

2. Strengthen Political Theory Study, Play the Role of Battle Fortress

According to the Ministry of Education about the second batch of universities in the new era of party construction "double gen" priority task guide (basic-level party branch) and the standardization of institution construction of the party branch in gansu province's handbook, combined with the gansu agricultural university, institute of plant protection staff party branch "boilerplate branch" foster to create a plan, with new thinking, new ways and new methods for basic working train of thought, In accordance with the requirements of "seven strengths", a series of themed activities with distinctive characteristics, such as political theory study, Party spirit education and practical education, have been carried out centering on strict "three meetings and one lesson". Branch to fix every Thursday afternoon for the party branch activities such as "three will be a lesson", during the outbreak of branch to "Internet + party" as in "three will be a lesson" important carrier, play a "learning power", "party construction in gansu province" and "micro party class" APP learning platform, will study "online" theory and "offline" organic combination of innovative activities.

With "three meetings and one lesson" and themed Party Day activities as the system guarantee, the branch conscientiously organizes the study of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, studies and implements the spirit of the fifth and sixth plenary sessions of the 19th CPC Central Committee, the National Conference on Ideological and Political Work in Universities and the National Education Conference, and studies the spirit of General Secretary Xi Jinping's series of speeches. Learn about governing (third volume), "four history", the party organization of colleges and universities "epidemic" during the demonstration model for micro party class, age and disease resistance is the most beautiful NiXingZhe etc., to convey the party and the state, province, provincial party committee, schools and colleges of education work committee of party spirit and the latest file instruction, education and guide teacher party members follow the party's strategic deployment, closely unite around the party, Armed with Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, the school consciously guided practice and promoted work, firmly established the "four consciousness", "four confidence" and "two maintenance", gave full play to its role as a battle fortress and vanguard model, and effectively promoted the high-quality development of all work of the School.

3. Keep the Original Intention of Teaching and Educating People, and Take on the Mission of Moral Education

The Teachers and Party members of the Party Branch of the Ministry of Education fulfill their original mission of teaching and educating people, actively engage in political thinking in the curriculum, and cultivate people with the spirit of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era. They strive to train new people to shoulder the great responsibility of national rejuvenation, and to train socialist builders and successors who are well developed morally, intellectually, physically, aesthetically, aesthetically, and labor. Staff party branch carried out with "bright identity, practice commitment, tree image, do benchmarking" for the requirements of the "party promises to carry out post" to create activities, requests all staff members give full play to the cutting edge exemplary, highlight the leading role of teachers in the college construction of study style and exemplary role, accomplished much wind lead, lead study pays special attention to the party's goal. Party members of the branch won "Gansu Agricultural University Teaching award", "Gansu Province Teaching Innovation Competition first prize", "National Plant Pathology Award", etc. It has been approved for one national first-class course, two provincial first-class courses, one provincial first-class major and one provincial first-class teaching achievement prize. In the class of 2021, the employment rate of plant protection graduates is 97%, the admission rate of postgraduate

entrance examination is 61%, and the rate of outstanding graduates is 37%, all of which are in the forefront of the school.

The faculty branch guides party members to strengthen their study of political theory, strictly control the requirements of the Party constitution, standardize their words and deeds, integrate the commitments into their job responsibilities and turn them into working power, and promote the development of various undertakings of the college. During the COVID-19 outbreak, teachers and party members actively carried out online learning and online q&a and other online teaching activities based on online course platforms and in-school online learning platforms, realizing the goal of "ceaseless teaching, ceaseless teaching" and effectively ensuring the education and teaching order, safety and stability of schools during the epidemic.

4. Concentrate on Scientific Research and Strive to be the Pioneer of Scientific and Technological Innovation

Staff branch for further implementation of jinping visit general secretary of the important speech spirit and reply spirit in gansu, service and rural poverty in gansu province tackling tough problems revitalization strategy implementation, coagulation hearts meet force of party members, teachers in gansu agricultural plant protection problems in the development of pioneer to achieve scientific and technological innovation, in order to solve practical problems as own duty, to promote the development of characteristic agriculture in gansu province as the goal, Contributing to poverty alleviation by promoting agricultural development; At present, the college undertakes more than 60 scientific research projects, including 12 national Natural Science Foundation of China projects, 3 national key RESEARCH and development projects, with a total funding of more than 10 million yuan. He has published 73 academic papers, including 15 SCI papers and 8 national patents. Teacher party members, and for the purpose of QiangNong xingnong for corn, seed crops in the hexi corridor in gansu province, the plateau summer vegetables, medicinal herbs, potato and apple plant protection problems in industries such as research, and the research results through training, technical guidance and demonstration method is applied to the production process, powerfully promoted the agricultural pest prevention and control, to restore the economic loss and promote the development of agricultural industry, It has increased agricultural production, increased enterprise efficiency and increased farmers' income, providing strong scientific and technological support for the people of Gansu to win the battle against poverty and build a beautiful and happy new home.

5. Give Full Play to Our Professional Strengths to Help Revitalize Rural Areas

In order to fully implement Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era and the guiding principles of his visit to Gansu province, we will earnestly implement the general requirements for Party building in the new era and integrate Party building with poverty alleviation. Faculty members with "khalid ents for root, QiangNong xingnong as own duty", according to the research direction and the specialty, actively carry out the gansu province agriculture industry situation and the main plant protection problems in the research of agricultural production, in recent years, the field training 10000 volumes of 5000 people and issuing of technical data, especially the branch with min county qin hui township baihua village party branch pair during the build, Party members of the teaching staff go into the fields from time to time and guide farmers hand in hand, solving various problems in the growth process of potatoes and Chinese medicinal materials, promoting the development of local potato and Chinese medicinal materials industry, providing a new way for farmers to get rid of poverty and

get rich, and effectively helping the poverty alleviation and rural revitalization strategy to be implemented at the grassroots level.

During the epidemic prevention and control period, the team of professor Xu Bingliang, a member of the branch, actively carried out "compiling data and building platforms; Pass information, push technology; Diagnose disease harm, solve doubts; Strong service, promote production "online technical service mode, guide fruit farmers to carry out spring orchard management. In view of the practical difficulties encountered in the spring cleaning technology of apple orchards, special technology was actively written to help fruit farmers solve production problems, and escort the overall victory of fighting against the epidemic and the stable development of apple industry. Make full use of wechat, QQ and other scientific and technological service network platforms, timely push and release apple pest control special technologies and related materials written by the team. With the help of telephone wechat, QQ group and other scientific and technological service network platform, timely understand the difficulties that fruit farmers meet in production, carry out online irregular and irregular guidance and training services, timely solve the actual production problems. Make full use of the team building of "four dimensional chain technology service mode" - "+ professional cooperatives + local expert professor + farmers", strengthen the service consciousness, promote agricultural production, and actively organize the local local expert, professional and technical personnel, and growers cooperative for spring cultivation of orchard management technology webcast training, help growers to solve production problems, Promote the steady development of Apple industry in Jingning County.

Party members of the teaching staff branch conducted technical training and field guidance in Jingtai county, Zhenyuan County, Tianzhu County, Jingning County and other counties in Gansu Province. Including the training and technical guidance on the prevention and control technology of the main diseases of highland summer vegetables by reducing medicine and increasing efficiency, the identification and control of the main diseases and pests of vegetables, the identification and control of the main underground pests of Chinese herbal medicine, the safe use of pesticides, the prevention and control of main insect pests in solar greenhouse, and the prevention and control of main common diseases of vegetables in solar greenhouse, etc. Issue "facilities melons and identification of solanaceous fruit vegetable main plant diseases and insect pests and prevent map", "high efficiency and energy saving solar greenhouse construction and melon seeds non-polluted standardization production technology and facilities for the melons and solanaceous fruit vegetable identification of main diseases and insect pests and prevent map", "prevention and control of plant diseases and insect pests of vegetables", "regulations of underground pest identification and prevention and control technology", "apple orchard spring qing garden technology" eight strategics "" , Identification and Prevention and control of Common Apple Diseases and Insect Pests, Technology of Reducing medicine and Improving Efficiency for Prevention and control of Apple Tree Canker disease and Annual Technology of Reducing Medicine and Improving Efficiency for Prevention and control of Major Apple Diseases and Insect Pests, etc., more than 8000 volumes (copies).

The party members of the teaching and Labor Branch take advantage of their professional advantages, actively serve the development of agricultural industry in Gansu Province, conduct a lot of research and technical achievements transformation for plant protection issues, give full play to the leading role, make contributions based on their own work, and make greater contributions to the building of a moderately prosperous society in an all-round way and the construction of a happy new Gansu province.

6. Conclusion

Faculty branch sticking with xi jinping, a new era the thought casting the soul of socialism with Chinese characteristics education, with khalid ents as the fundamental, QiangNong xingnong as own duty, to "three will be a lesson" for the gripper, the working mechanism of innovation, and standardize the organization life, enhance the cohesion and combat effectiveness, strive to achieve "powerful" seven, emerge a batch of excellent party member, He has won the National May 1st Labor Medal, the National March 8th Red Flag Bearer, The Teaching Master in Gansu Province, the Leading Talent in Gansu Province and the Young Teachers in Colleges and universities in Gansu Province Award and other honorary titles. He has implemented the model branch cultivation and creation concept of "write the original intention on the post, and fall the mission in action". Brought into play the vanguard and exemplary role of party members; The practice of "four good teachers", "four guides" and "four Unity"; It promotes the high quality development of teaching, scientific research and social service work of the college.

Under the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, the faculty branch stays true to its original aspiration and keeps its mission firmly in mind, and keeps forging ahead, educating people for the Party and the country, and forging ahead to realize the Chinese dream of the great rejuvenation of the Chinese nation!
